

Vendor Security Assessment

Meridian Cloud Systems · SOC 2 Type II readiness review · Confidential draft

Summary

This report evaluates Meridian Cloud Systems' infrastructure controls ahead of a SOC 2 Type II audit. Overall posture is adequate, with three medium-severity findings noted below.

Findings

1. Access logs are retained for 30 days; 90 days is recommended.
2. Multi-factor authentication is not enforced for two legacy service accounts.
3. Quarterly access reviews are undocumented for the past two cycles.

Recommendation: remediate items 1-3 before the audit window opens.
